Fitness, Aquatics and Spa

January Update

Renovation Update

The renovation project continues to make major strides with an anticipated opening of the first phase of the Aquatics complex and new Group Fitness Studios still scheduled for Mid to late February. The new temporary Valet set-up adjacent to the Spa entrance has been working out very well.

Facilities Update

Progress being made in all areas regarding repairs and maintenance. Work is still scheduled for replacement of Spa Specialty showers in January/February.

Program Update

There was a very steady increase in traffic over the last two weeks of the year in all areas, especially in the Fitness Center. We had approximately 3,300 registered guests in town which is slightly behind our usually numbers. All ran smoothly for the most part with minimal guest issues. Due to the extremely cold weather, the turnout for the Jingle Bell Jaunt was very low – approximately 300 individuals.

Staff Update

Screening of qualified candidates for the Spa Coordinator position, Spa/Fitness Reception and new Aquatic staff members continue. Jessica Cochran's last day was January 3rd. We wish her well in her new endeavors.
